This action is in response to amendment filed 12/04/03.

Reasons for Allowance

1. Claims 25-28, 37-56, and 58 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 25, 27, 37, and 58 limit the structure of a semiconductor substrate to having consecutive masks that are angled or twisted from the previous mask (at 90-120 degrees claim 27) or at about 90 degrees (claim 58). This limitation in combination with the other limitations of claims 25, 27, 37, and 58 is not taught or suggested by the prior art of record. Usui does not teach a second patterned mask with growth suppressing properties that is positioned at a level different from the first mask. Pribat (US 4999314) describes multiple layers using lateral epitaxial growth, but does not teach or suggest angling or twisting one mask in relation to another. Bozler (US 5362682) teaches forming slits in the same layer of the mask at 90-degree angles, but not a rotation of mask layers. Nelson (US 4935936) teaches a single layer of growth suppressing mask.

Claims 26, 42, 45, 48, 51, and 54 are allowable as being dependant upon allowable claim 25.

Claims 28, 40, 43, 46, 49, 52, and 55 are allowable as being dependant upon allowable claim 27.

Art Unit: 2813

Claims 38-39, 41, 44, 47, 50, 53, and 56 are allowable as being dependant upon allowable claim 37.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
